

# CHAPTER 8

## JEWISH EDUCATION

### CHAPTER TABLE OF CONTENTS

|   | <b>Page</b> |
|---|-------------|
| Formal Jewish Education of Adults . . . . .   | 8-2         |
| Informal Jewish Education of Adults . . . . .   | 8-9         |
| Attended Any Adult Jewish Education Program or Class, Engaged in Other Type<br>of Jewish Study or Learning, Visited a Jewish Museum or Attended<br>a Jewish Cultural Event in the Past Year . . . . . | 8-19        |
| Results of the Jewish Institutions Survey—Jewish Education of Children . . . . .  | 8-28        |
| Preschool/Child Care Program Attended by Jewish Children . . . . .  | 8-36        |
| Type of School Attended by Jewish Children . . . . .  | 8-42        |
| Seriously Investigate Sending Jewish Children to a Jewish Day School . . . . .  | 8-56        |
| Major Reasons for Not Sending Jewish Children to a Jewish Day School . . . . .  | 8-62        |
| Current Formal Jewish Education of Jewish Children . . . . .  | 8-72        |
| Jewish Children Who Have Ever Attended Formal Jewish Education . . . . .  | 8-81        |
| Day Camp Attended or Worked at by Jewish Children This Past Summer . . . . .  | 8-89        |
| Overnight Camp Attended or Worked at by Jewish Children This Past Summer . . .  | 8-97        |
| Participate in a Jewish Teenage Youth Group . . . . .   | 8-107       |
| Jewish Children Currently Involved in Formal or Informal Jewish Education . . . . .   | 8-112       |

*Impress them upon your children. Recite them when you stay at home  
and when you are away, when you lie down, and when you get up.*

(DEUTERONOMY 6:7)

## FORMAL JEWISH EDUCATION OF ADULTS

**T**able 8-1 shows that 72% of born or raised Jewish respondents (age 18 and over) (*born Jewish respondents*) in Jewish households in Broward received some formal Jewish education as children. 53% of born Jewish respondents attended a supplemental school as children; 15% attended a Jewish day school; 1% were educated in Israel; and 2% had a tutor.

**Community Comparisons.** Table 8-2 shows that the 72% who **received some formal Jewish education as children** is the third lowest of about 40 comparison Jewish communities and compares to 77% in both Miami and West Palm Beach, 75% in South Palm Beach, and 72% in both Atlanta and Las Vegas. The 72% compares to 73% in 1997.

**Table 8-3** shows that the 15% who **attended a Jewish day school as a child** is the fourth highest of about 40 comparison Jewish communities and compares to 21% in Miami, 11% in Atlanta, 9% in South Palm Beach, 6% in Las Vegas, and 5% in West Palm Beach. The 15% compares to 8% in 1997.

### Received Some Formal Jewish Education as a Child

**Comparisons Among Population Subgroups.** Table 8-1 shows that, overall, 72% of born Jewish respondents **received some formal Jewish education as a child**. The percentage is much higher for born Jewish respondents (in):

- age 35-49 (84%)
- who are males (86%) overall and 81%-91% in each age group
- synagogue member households (83%) and JCC member households (85%)
- households who donated to the Jewish Federation in the past year (82%) and households who were asked but did not donate to the Jewish Federation in the past year (87%)
- households who donated \$100-\$500 (87%), \$500-\$1,000 (91%), and \$1,000 and over (92%) to the Jewish Federation in the past year

The percentage is much lower for born Jewish respondents (in):

- who are females under age 35 (54%) and age 75 and over (46%) and age 65 and over (53%)
- intermarried households (61%)

### Attended a Jewish Day School as a Child

**Table 8-2** shows that, overall, 15% of born Jewish respondents **attended a Jewish day school as a child**. The percentage is much higher for born Jewish respondents (in):

- under age 35 (25%)
- Orthodox households (40%)

## INFORMAL JEWISH EDUCATION OF ADULTS

**A**s more concerns are raised about Jewish continuity, interest has been sparked in identifying factors which may be related to encouraging Jews to lead a “Jewish life.” Thus, three types of informal Jewish education are examined below — ❶ attended or worked at a Jewish overnight camp as children, ❷ participated in a Jewish youth group as teenagers, and ❸ participated in Hillel/Chabad while in college (excluding High Holidays). These are then used in this and other chapters as variables to help explain differing levels of Jewish involvement as adults. The *Summary Report* contains a section that collates the information on the correlations of these types of informal Jewish education with Jewish identity measures. This section examines the percentage of born or raised Jewish respondents (*born Jewish respondents*) in Jewish households in Broward who participated in each type of informal Jewish education as a child.

### Attended or Worked at a Jewish Overnight Camp as Children

**Table 8-4** shows that 34% of born Jewish respondents attended or worked at a Jewish overnight camp as children. A *Jewish* overnight camp is defined as one that holds religious services or has significant Jewish content.

**Community Comparisons.** **Table 8-5** shows that the 34% who **attended or worked at a Jewish overnight camp as children** is about average among about 30 comparison Jewish communities and compares to 33% in Miami, 24% in South Palm Beach, 27% in Las Vegas, and 23% in West Palm Beach. The 34% compares to 17% in 1997.

**Comparisons Among Population Subgroups.** **Table 8-4** shows that, overall, 34% of born Jewish respondents **attended or worked at a Jewish overnight camp as children**. The percentage is much higher for born Jewish respondents (in):

- households in the Southeast (44%)
- age 35-49 (45%)
- Orthodox households (56%)
- Jewish organization member households (44%)
- households who were asked but did not donate to the Jewish Federation in the past year (44%)
- households who donated \$1,000 and over to the Jewish Federation in the past year (44%)

The percentage is much lower for born Jewish respondents (in):

- households in the North Central (24%)
- under age 35 (24%)
- who are females under age 35 (22%)

### Participated in a Jewish Youth Group as Teenagers

**Table 8-4** shows that 42% of born Jewish respondents regularly participated (*participated*) in a Jewish youth group as teenagers.

**Community Comparisons.** **Table 8-6** shows that the 42% who **participated in a Jewish youth group as teenagers** is about average among about 25 comparison Jewish communities and compares to 42% in Miami, 38% in Las Vegas, 34% in West Palm Beach, and 33% in South Palm Beach. The 42% compares to 30% in 1997.

**Comparisons Among Population Subgroups.** **Table 8-4** shows that, overall, 42% of born Jewish respondents **participated in a Jewish youth group as teenagers**. The percentage is much higher for born Jewish respondents (in):

- households in the Southeast (54%)
- who are females age 50-64 (55%)
- Orthodox households (71%) and Conservative households (55%)
- in-married households (54%)
- synagogue member households (54%), households who attended Chabad in the past year (59%), and Jewish organization member households (61%)
- households who donated to the Jewish Federation in the past year (53%)
- households who donated under \$100 (57%) and \$1,000 and over (53%) to the Jewish Federation in the past year

The percentage is much lower for born Jewish respondents (in):

- who are females age 65-74 (30%)
- Just Jewish households (27%)
- intermarried households (20%)

### Participated in Hillel/Chabad While in College

**Table 8-4** shows that 23% of born Jewish respondents who attended college (either a two-year or a four-year college) participated in Jewish activities (other than on High Holidays) sponsored by Jewish college groups such as Hillel or Chabad (*participated in Hillel/Chabad while in college*).

**Community Comparisons.** **Table 8-7** shows that the 23% who **participated in Hillel/Chabad while in college** is below average among about 25 comparison Jewish communities and compares to 28% in Miami, 25% in West Palm Beach, 24% in South Palm Beach, and 20% in Las Vegas. The 23% compares to 23% in 1997.

**Comparisons Among Population Subgroups.** **Table 8-4** shows that, overall, 23% of born Jewish respondents **participated in Hillel/Chabad while in college**. The percentage is much higher for born Jewish respondents (in):

- who are females age 75 and over (37%)
- Orthodox households (57%) and Conservative households (34%)
- synagogue member households (33%), households who attended Chabad in the past year (34%), JCC member households (35%), and Jewish organization member households (40%)
- households who donated to the Jewish Federation in the past year (36%)
- households who donated under \$100 (35%), \$100-\$500 (37%), \$500-\$1,000 (37%), and \$1,000 and over (34%) to the Jewish Federation in the past year

The percentage is much lower for born Jewish respondents in:

- Just Jewish households (13%)
- conversionary in-married households (13%) and intermarried households (6%)

## **ATTENDED ANY ADULT JEWISH EDUCATION PROGRAM OR CLASS, ENGAGED IN OTHER TYPE OF JEWISH STUDY OR LEARNING, VISITED A JEWISH MUSEUM OR ATTENDED A JEWISH CULTURAL EVENT IN THE PAST YEAR**

**T**able 8-8 shows that 28% of Jewish respondents in Broward attended an adult Jewish education program or class (*attended adult Jewish education*) in the past year. 38% engaged in “any other type” of Jewish study or learning, and 52% visited a Jewish museum or attended a Jewish cultural event, such as a lecture by an author, a film, a play, or a musical performance in the past year. 53% visited a Jewish museum or attended a Jewish cultural event in the past year.

**Community Comparisons.** Table 8-9 shows that the 28% who attended adult Jewish education in the past year is about average among about 25 comparison Jewish communities and compares to 24% in Miami, 19% in both South Palm Beach and West Palm Beach, and 13% in Las Vegas.

The 38% who engaged in any other type of Jewish study or learning compares to 30% in Miami, the only other community to ask this question.

The 53% who visited a Jewish museum or attended a Jewish cultural even in the past year compares to 52% in Miami, the only other community to ask this question.

### **Attended Any Organized Jewish Education Program or Class in the Past Year**

**Comparisons Among Population Subgroups.** Table 8-8 shows that, overall, 28% of respondents attended adult Jewish education in the past year. The percentage is much higher for respondents (in):

- Orthodox households (68%) and Conservative households (40%)
- synagogue member households (52%), households who attended Chabad in the past year (43%), JCC member households (46%), and Jewish organization member households (50%)
- households in which the respondent attended a Jewish day school as a child (39%)
- households in which the respondent attended a Jewish youth group as a teenager (41%)
- households in which the respondent participated in Hillel/Chabad while in college (excluding High Holidays) (49%)
- households in which an adult visited Israel on a Jewish trip (42%)
- households who donated to the Jewish Federation in the past year (42%)
- households who donated \$100-\$500 (39%), \$500-\$1,000 (66%), and \$1,000 and over (55%) to the Jewish Federation in the past year

The percentage is much lower for respondents in:

- Just Jewish households (11%)
- intermarried households (7%)
- synagogue non-member households (15%)

and Jewish organization non-member households (14%)

- households in which no adult visited Israel (17%)

### **Engaged in Any Other Type of Jewish Study or Learning in the Past Year**

Overall, 38% of respondents engaged in any other type of Jewish study or learning in the past year. The percentage is much higher for respondents (in):

- who are under age 50 (44%)
- who are females under age 35 (54%) and age 35-49 (52%)
- Orthodox households (72%)
- conversionary in-married households (51%)
- synagogue member households (55%), households who attended Chabad in the past year (60%), JCC member households (62%), and Jewish organization member households (50%)
- households in which the respondent attended a Jewish youth group as a teenager (52%)
- households in which the respondent participated in Hillel/Chabad while in college (excluding High Holidays) (52%)
- households who donated to the Jewish Federation in the past year (52%)
- households who donated under \$100 (54%), \$500-\$1,000 (57%), and \$1,000 and over (50%) to the Jewish Federation in the past year

The percentage is much lower for respondents (in):

- who are age 75 and over (26%)
- who are male age 75 and over (28%)
- who are female age 75 and over (25%) and 65 and over (27%)
- Just Jewish households (29%)
- households in which the respondent did not participate in a Jewish youth group while a teenager (28%)

### **Visited a Jewish Museum or Attended a Jewish Cultural Event in the Past Year**

Overall, 53% of respondents visited a Jewish museum or attended a Jewish cultural event such as a lecture by an author, a film, a play, or a musical performance in the past year.

The percentage is much higher for respondents (in):

- households in the Southeast (67%)
- Orthodox households (77%)
- in-married households (63%)
- synagogue member households (72%), households who attended Chabad in the past year (74%), and Jewish organization member households (74%)
- households in which the respondent participated in a Jewish youth group as a teenager (69%)
- households in which the respondent participated in Hillel/Chabad while in college (excluding High Holidays) (66%)
- households in which an adult visited Israel on a Jewish trip (71%)
- households who donated to the Jewish Federation in the past year (70%)
- households who donated under \$100 (68%), \$500-\$1,000 (77%), and \$1,000 and over (88%) to the Jewish Federation in the past year

The percentage is much lower for respondents (in):

- who are males under age 35 (43%)
- Just Jewish households (39%)
- intermarried households (27%)
- households in which no adult visited Israel (27%)

## RESULTS OF THE JEWISH INSTITUTIONS SURVEY— JEWISH EDUCATION OF CHILDREN

**T**able 8-10 shows information about the Jewish education of Jewish children age 0-17 in Broward *according to the Jewish Institutions Survey*. These data are discussed in the appropriate sections of this Chapter. The table shows the number of:

- ❶ Jewish children age 0-5 who attend a Jewish preschool or child care program;
- ❷ Jewish children age 5-12 who attend formal Jewish education pre-b'nai mitzvah;
- ❸ Jewish children age 13-17 who attend formal Jewish education post-b'nai mitzvah;
- ❹ Jewish children age 3-17 who attended or worked at a Jewish day camp this past summer (the summer of 2015); and
- ❺ Jewish children age 13-17 who participate in a Jewish teenage youth group.

## **PRESCHOOL/CHILD CARE PROGRAM ATTENDED BY JEWISH CHILDREN**

**T**able 8-11 shows that, according to the Telephone Survey, 61% (1,900 children) of Jewish children age 0-5 in Broward attend a Jewish preschool/child care program; 18%, a non-Jewish preschool/child care program; and 21%, do not attend a preschool/child care program.

The *Jewish Preschool/Child Care Market Share (market share)* ① is defined as the percentage of Jewish children age 0-5 in a preschool/child care program who attend a *Jewish* preschool/child care program. Jewish preschool/child care programs have a 77% market share of the preschool/child care market for Jewish children age 0-5.

**Community Comparisons.** Table 8-12 shows that the 61% who **attend a Jewish preschool/child care program** is the third highest of about 40 comparison Jewish communities and compares to 54% in Miami, 44% in South Palm Beach, 34% in West Palm Beach, 29% in Atlanta, and 14% in Las Vegas. The 61% compares to 36% in 1997.

The 18% who **attend a non-Jewish preschool/child care program** is below average among about 40 comparison Jewish communities and compares to 45% in Atlanta, 40% in Las Vegas, 36% in West Palm Beach, 23% in South Palm Beach, and 7% in Miami. The 18% compares to 30% in 1997.

The 21% who **do not attend a preschool/child care program** is the second lowest of about 40 comparison Jewish communities and compares to 46% in Las Vegas, 39% in Miami, 33% in South Palm Beach, 30% in West Palm Beach, and 25% in Atlanta. The 21% compares to 34% in 1997.

The 77% **market share** is well above average among about 40 comparison Jewish communities and compares to 88% in Miami, 65% in South Palm Beach, 49% in West Palm Beach, 39% in Atlanta, and 26% in Las Vegas. The 77% compares to 55% in 1997.

### **Jewish Institutions Survey**

**THIS SECTION AWAITING DATA.**

**Comparisons Among Population Subgroups.** Table 8-11 shows that, overall, 61% of Jewish children age 0-5 attend a Jewish preschool/child care program. The percentage is much higher (in):

- households earning an annual income of \$100,000 and over (80%)
- Reform households (80%)
- in-married households (68%)
- synagogue member households (72%), households in which the respondent did not participate in Chabad in the past year (72%), and JCC member households (81%)
- households who donated to the Jewish Federation in the past year (82%)

The percentage is much lower in:

- households earning an annual income of under \$100,000 (40%)
- households who attended Chabad in the past year (50%)
- households who were not asked to donate to the Jewish Federation in the past year (42%)
- households who did not donate to the Jewish Federation in the past year (47%)

Jewish children age 5 who already attend kindergarten are excluded from these results and are included in the results for Jewish children age 5-17 in the "Type of School Attended by Jewish Children" section in this Chapter.

Note: Sample sizes for this table are generally small and only differences in results that are at least 20 percentage points apart should be treated as important.  
Note: See page 8-36 for an explanation of ❶.

## TYPE OF SCHOOL ATTENDED BY JEWISH CHILDREN

### Jewish Children Age 5-17

**T**able 8-13 shows that, according to the Telephone Survey, 17% (2,600 children) of Jewish children age 5-17 in Broward attend a Jewish day school; 14%, a non-Jewish private school; and 69%, a public school. These results vary little when part Jewish children are added. Note that, in 2011, Florida was 38<sup>th</sup> among the states in spending per pupil in public schools.

The *Jewish Day School Market Share (market share)* ① is defined as the percentage of Jewish children in a private school who attend a Jewish day school. Jewish day schools have an 81% market share of the private school market for Jewish children age 5-17. Market shares are generally calculated from small sample sizes and the results should be treated with caution.

**Community Comparisons.** Table 8-14 shows that the 17% who attend a Jewish day school is about average among about 45 comparison Jewish communities and compares to 46% in Miami, 19% in South Palm Beach, 12% in Atlanta, 9% in Las Vegas, and 7% in West Palm Beach. The 17% compares to 13% in 1997.

The 14% who attend a non-Jewish private school is about average among about 45 comparison Jewish communities and compares to 16% in South Palm Beach, 11% in each of Miami, Atlanta, and West Palm Beach, and 7% in Las Vegas. The 14% compares to 11% in 1997.

The 69% who attend a public school is about average among about 45 comparison Jewish communities and compares to 84% in Las Vegas, 82% in West Palm Beach, 77% in Atlanta, 66% in South Palm Beach, and 43% in Miami. The 69% compares to 76% in 1997.

The 55% market share is below average among about 45 comparison Jewish communities and compares to 81% in Miami, 58% in Las Vegas, 54% in South Palm Beach, 50% in Atlanta, and 39% in West Palm Beach. The 55% compares to 55% in 1997.

### Jewish Institutions Survey

THIS SECTION WAITING FOR DATA.

**Comparisons Among Population Subgroups.** Table 8-13 shows that, according to the Telephone Survey, overall, 17% of Jewish children age 5-17 attend a Jewish day school. The percentage is much higher for Jewish children age 5-17 in:

- households in the Southeast (42%)
- Orthodox households (68%)
- JCC member households (34%)
- households in which the respondent attended a Jewish day school as a child (37%)
- households in which the respondent attended or worked at a Jewish overnight camp as a child (30%)
- households in which the respondent participated in a Jewish youth group as a teenager (30%)
- households in which the respondent participated in Hillel/Chabad while in college (excluding High Holidays) (46%)
- households in which an adult visited Israel on a Jewish trip (27%)
- households who donated \$100 and over to the Jewish Federation in the past year (27%)

The percentage is much lower for Jewish children age 5-17 in:

- Reform households (6%)
- intermarried households (3%)
- synagogue non-member households (7%)
- households in which the respondent did not attend Jewish education as a child (7%)
- households in which the respondent did not participate in a Jewish youth group as a teenager (6%)
- households in which no adult visited Israel (6%)

### Jewish Children Age 5-12

Table 8-13 shows that, according to the Telephone Survey, 21% (2,000 children) of Jewish children age 5-12 attend a Jewish day school; 9%, a non-Jewish private school; and 70%, a public school. Jewish day schools have an 71% market share of the private school market for Jewish children age 5-12.

**Community Comparisons.** Table 8-15 shows that the 21% who attend a Jewish day school is about average among about 40 comparison Jewish communities and compares to 52% in Miami, 22% in South Palm Beach, 17% in Atlanta, and 12% in both Las Vegas and West Palm Beach. The 21% compares to 16% in 1997.

The 9% who attend a non-Jewish private school is about average among about 40 comparison Jewish communities and compares to 15% in South Palm Beach, 13% in West Palm Beach, and 8% in each of Miami, Atlanta, and Las Vegas. The 9% compares to 13% in 1997.

The 70% who attend a public school is about average among about 40 comparison Jewish communities and compares to 80% in Las Vegas, 76% in West Palm Beach, 75% in Atlanta, 63% in South Palm Beach, and 40% in Miami. The 70% compares to 71% in 1997.

The 71% **market share** is about average among about 40 comparison Jewish communities and compares to 87% in Miami, 67% in Atlanta, 61% in Las Vegas, 59% in South Palm Beach, and 47% in West Palm Beach. The 71% compares to 56% in 1997.

### **Jewish Institutions Survey.**

THIS SECTION AWAITING DATA.

### **Jewish Children Age 13-17**

**Table 8-13** shows that, *according to the Telephone Survey*, 11% (600 children) of Jewish children age 13-17 attend a Jewish day school; 23%, a non-Jewish private school; and 66%, a public school. Jewish day schools have a 31% market share of the private school market for Jewish children age 13-17.

**Community Comparisons.** **Table 8-16** shows that the 11% who **attend a Jewish day school** is about average among about 40 comparison Jewish communities and compares to 37% in Miami, 14% in South Palm Beach, 7% in Atlanta, 5% in Las Vegas, and 1% in West Palm Beach. The 11% compares to 10% in 1997.

The 23% who **attend a non-Jewish private school** is the third highest of about 40 comparison Jewish communities and compares to 16% in South Palm Beach, 15% in Miami, 14% in Atlanta, 7% in West Palm Beach, and 5% in Las Vegas. The 23% compares to 8% in 1997.

The 66% who **attend a public school** is well below average among about 40 comparison Jewish communities and compares to 92% in West Palm Beach, 91% in Las Vegas, 79% in Atlanta, 70% in South Palm Beach, and 49% in Miami. The 66% compares 83% in 1997.

The 31% **market share** is well below average among about 40 comparison Jewish communities and compares to 71% in Miami, 51% in Las Vegas, 45% in South Palm Beach, 32% in Atlanta, and 16% in West Palm Beach. The 31% compares to 55% in 1997.

### **Jewish Institutions Survey.**

\* Community had a Jewish high school at the time of the survey. Milwaukee, Richmond, and Cincinnati had only very small Orthodox Jewish high schools. Broward and West Palm Beach were served by Jewish high schools located in neighboring communities.  
 \*\* The Jewish day (elementary) school is located in a neighboring community.  
<sup>1</sup> Excludes Jewish children age 5 who do not yet attend kindergarten.  
<sup>2</sup> NJPS 2000 data are for the *more Jewishly-connected sample*.

 Note: See page 8-42 for an explanation of ①.

## **SERIOUSLY INVESTIGATE SENDING JEWISH CHILDREN TO A JEWISH DAY SCHOOL**

**R**espondents in households in Broward with Jewish children age 0-17 (none of whom currently attend a Jewish day school, have attended in the past, or will definitely attend in the future) were asked if they did or will seriously investigate sending their Jewish children to a Jewish day school.

In this section, respondents are asked about *prospective behavior*. In examining these results, it should be noted that some respondents have difficulty projecting their behavior and that unforeseen events may alter projected behavior. However, in the aggregate, the results are indicative of the community's propensity to send Jewish children to a Jewish day school.

**Table 8-17** shows that 12% of households with Jewish children age 0-17 currently have a Jewish child who attends a Jewish day school; 10% sent a Jewish child to a Jewish day school in the past; 1% (households with Jewish children age 0-5) will definitely send a Jewish child to a Jewish day school in the future; 18% (households with Jewish school age children) seriously investigated sending a Jewish child to a Jewish day school in the past; 7% (households with Jewish children age 0-5) will seriously investigate sending a Jewish child to a Jewish day school in the future; 45% (households with Jewish school age children) did not seriously investigate sending a Jewish child to a Jewish day school in the past; and 6% (households with Jewish children age 0-5) will not seriously investigate sending a Jewish child to a Jewish day school in the future. The 52% of households with Jewish children age 0-17 who did not or will not seriously investigate sending a Jewish child to a Jewish day school are *not in the Jewish day school market*.

**Community Comparisons.** **Table 8-19** shows that the 52% not in the Jewish day school market is below average among about 30 comparison Jewish communities and compares to 53% in West Palm Beach, 44% in South Palm Beach, 33% in Las Vegas, and 24% in Miami. The 52% compares to 56% in 1997.

**Comparisons Among Population Subgroups.** **Table 8-18** shows that, overall, 52% of households with Jewish children age 0-17 are not in the Jewish day school market. The percentage is much higher in:

- Reform households (66%) and Just Jewish households (75%)
- synagogue non-member households (77%)
- households in which the respondent did not attend Jewish education as a child (74%)
- households in which the respondent did not participate in a Jewish youth group as a teenager (67%)
- households in which the respondent did not participate in Hillel/Chabad while in college (excluding High Holidays) (62%)
- households in which no adult visited Israel (64%)
- households who were asked but did not donate to the Jewish Federation in the past year (72%)

The percentage is much lower in:

- households in the Southeast (33%)
- Orthodox households (8%) and Conservative households (25%)
- households who attended Chabad in the past year (38%), JCC member households (24%), Jewish organization member households (38%), and Jewish organization member households (38%)
- households in which the respondent attended a Jewish day school as a child (24%)
- households in which the respondent participated in a Jewish youth group as a teenager (41%)
- households in which the respondent participated in Hillel/Chabad while in college (excluding High Holidays) (35%)
- households in which an adult visited Israel on a Jewish trip (41%)
- households who donated to the Jewish Federation in the past year (42%)
- households who donated \$1,000 and over to the Jewish Federation in the past year (19%)

\* Question asked was *seriously consider* rather than *seriously investigate*.

<sup>1</sup> The Jewish day school is located in a neighboring community.

## MAJOR REASONS FOR NOT SENDING JEWISH CHILDREN TO A JEWISH DAY SCHOOL

**R**espondents in households in Broward with Jewish children age 0-17 (none of whom currently attend a Jewish day school, have attended in the past, or will definitely attend in the future) were asked the major reasons they did not, will not, or might not send their Jewish children to a Jewish day school. Possible responses were not read to the respondent. Rather, the question was open-ended whereby the respondent had to compose his/her own response. Note that respondents could provide more than one major reason.

**Table 8-20** shows that the major reasons for not sending Jewish children age 0-17 to a Jewish day school most commonly reported are tuition cost (43%), quality of other private or public schools (13%), belief in public schools/ethnically mixed environment (13%), no Jewish day school in area when decision was made (8%), distance from home (8%), school is too religious for family/family is not religious (4%), and curriculum issues (4%),

**Community Comparisons.** **Table 8-21** shows that the 43% who reported **tuition cost** is well above average among about 30 comparison Jewish communities and compares to 57% in West Palm Beach, 45% in Miami, 44% in South Palm Beach, and 43% in Las Vegas. The 43% compares to 47% in 1997.

**Table 8-22** shows that the 13% who reported **quality of other private or public schools** is about average among about 30 comparison Jewish communities and compares to 14% in West Palm Beach, 7% in South Palm Beach, 6% in Miami, and 4% in Las Vegas. The 13% compares to 4% in 1997.

**Table 8-23** shows that the 13% who reported **belief in public schools/ethnically mixed environment** is the third lowest of about 30 comparison Jewish communities and compares to 41% in South Palm Beach, 29% in West Palm Beach, 11% in Miami, and 10% in Las Vegas. The 13% compares to 16% in 1997.

**Table 8-24** shows that the 8% who reported **distance from home** is about average among about 30 comparison Jewish communities and compares to 20% in West Palm Beach, 11% in Las Vegas, 10% in Miami, and 6% in South Palm Beach. The 8% compares to 11% in 1997.

**Table 8-25** shows that the 4% who reported **school is too religious for family/family is not religious** is the second lowest of about 30 comparison Jewish communities and compares to 17% in South Palm Beach, 10% in West Palm Beach, 8% in Miami, and 2% in Las Vegas. The 4% compares to 8% in 1997.

**Table 8-26** shows that the 2% who reported **quality of education at Jewish day schools** is below average among about 30 comparison Jewish communities and compares to 8% in South Palm Beach, 7% in Miami, 2% in Las Vegas, and 1% in West Palm Beach. The 2% compares to 7% in 1997.

**Table 8-27** shows that the 1% who reported **have a special needs child** is about average among about 30 comparison Jewish communities and compares to 3% in Las Vegas, 2% in West Palm Beach, and 1% in both Miami and South Palm Beach. The 1% compares to 3% in 1997.

**Table 8-28** shows that the 0% who reported **intermarriage** is about average among about 30 comparison Jewish communities and compares to 3% in both South Palm Beach and West Palm Beach, 1% in Las Vegas, and 0% in Miami. The 0% compares to 4% in 1997.

## CURRENT FORMAL JEWISH EDUCATION OF JEWISH CHILDREN

### Jewish Children Age 5-17

**T**able 8-29 shows that, according to the Telephone Survey, 46% (7,000 children) of Jewish children age 5-17 in Broward currently attend formal Jewish education, including 28% at a supplemental school and 17% at a Jewish day school.

**Comparisons Among Population Subgroups.** Table 8-29 shows that, overall, 46% of Jewish children age 5-17 currently attend formal Jewish education. The percentage is much higher for Jewish children age 5-17 in:

- households in the Southeast (60%)
- the age 5-12 group (57%)
- households earning an annual income of \$200,000 and over (67%)
- Orthodox households (78%)
- synagogue member households (56%) and JCC member households (67%)
- households in which the respondent attended a Jewish day school as a child (60%)
- households in which the respondent attended or worked at a Jewish overnight camp as a child (58%)
- households in which the respondent participated in Hillel/Chabad while in college
- households who were asked but did not donate to the Jewish Federation in the past year (70%)
- households who donated under \$100 (56%) and \$1,000 and over (57%) to the Jewish Federation in the past year

The percentage is much lower for Jewish children age 5-17 in:

- households in the West Central (26%)
- the age 13-17 group (27%)
- households earning an annual income of under \$100,000 (36%)
- Just Jewish households (26%)
- conversionary in-married households (32%) and intermarried households (24%)
- synagogue non-member households (27%)
- households in which the respondent did not attend Jewish education as a child (18%)
- households in which the respondent did not participate in a Jewish youth group as a teenager (35%)
- households in which the respondent did not participate in Hillel/Chabad while in college (excluding High Holidays) (33%)
- households in which no adult visited Israel (26%)
- households who were not asked to donate to the Jewish Federation in the past year (35%)

### Jewish Children Age 5-12 (Pre-B'nai Mitzvah)

**Table 8-29** shows that, *according to the Telephone Survey*, 57% (5,500 children) of Jewish children **age 5-12** currently attend formal Jewish education, including 36% at a supplemental school and 9% at a Jewish day school.

#### Jewish Institutions Survey.

THIS SECTION AWAITING DATA.

**Community Comparisons.** **Table 8-30** shows that the XX% who currently attend formal Jewish education *according to the Jewish Institutions Survey* is XXXX among about 35 comparison Jewish communities and compares to 56% in South Palm Beach, 54% in Miami, 46% in West Palm Beach, and 45% in Las Vegas. The XX% compares to 45% in 1997.

The 57% who currently attend formal Jewish education *according to the Telephone Survey* is the third lowest of about 20 comparison Jewish communities and compares to 71% in Miami and 37% in Las Vegas.

### Jewish Children Age 13-17 (Post-B'nai Mitzvah)

**Table 8-29** shows that, *according to the Telephone Survey*, 27% (1,600 children) of Jewish children **age 13-17** currently attend formal Jewish education, including 16% at a supplemental school and 11% at a Jewish day school.

#### Jewish Institutions Survey.

THIS SECTION AWAITING DATA.

### Retention Rate

**Table 8-30** shows the *retention rate* ①, which is defined as the percentage of Jewish *students* age 5-12 who continue their formal Jewish education after their b'nai mitzvah. This is calculated by dividing the percentage of Jewish children age 13-17 who currently attend formal Jewish education by the percentage of Jewish children age 5-12 who currently attend formal Jewish education.

**Table 8-30** shows that, *according to the Telephone Survey*, the retention rate in Broward is 47% (27% divided by 57%).

**Community Comparisons.** **Table 8-30** shows that the XX% retention rate *according to the Jewish Institutions Survey* is XXXX among about 35 comparison Jewish communities and compares to 43% in Miami, 40% in South Palm Beach, 36% in West Palm Beach, and 25% in Las Vegas. The XX% compares to 37% in 1997.

The 47% retention rate *according to the Telephone Survey* is the second lowest of about 20 comparison Jewish communities and compares to 61% in Miami and 48% in Las Vegas.

❁ Both the Jewish Institutions Survey and the Telephone Survey results are shown.

<sup>1</sup> Excludes Jewish children age 5 who do not yet attend kindergarten.

<sup>2</sup> No formal Jewish education programs existed for Jewish children age 13-17 at the time of the survey.

<sup>3</sup> Excludes 38% being tutored regularly at home.

<sup>4</sup> NJPS 2000 data are based on the Telephone Survey for the *more Jewishly-connected sample*.

Note: In these communities, a *Jewish Institutions Survey* gathered information from local Jewish educational institutions concerning current attendance in formal Jewish education. Some communities reported data based upon the Jewish Institutions Survey; others reported data based upon the Telephone Survey (querying current attendance of each Jewish child in formal Jewish education).

Note: See page 8-73 for an explanation of ❶.

## JEWISH CHILDREN WHO HAVE EVER ATTENDED FORMAL JEWISH EDUCATION

**T**able 8-31 shows that 82% (12,000 children) of Jewish children age 5-17 in Broward have received some formal Jewish education (either currently attend or have attended in the past), including 53% at a supplemental school and 29% at a Jewish day school. Note that Jewish children who attended both a Jewish day school and a supplemental school are included in the Jewish day school results.

94% (5,600 children) of Jewish children age 13-17 have received some formal Jewish education, including 73% at a supplemental school and 21% at a Jewish day school. The interest in this age group is that, since *very few* Jewish children are enrolled in formal Jewish education for the first time at age 13 or older, it suggests that only 6% of Jewish children in Broward will *not* receive any formal Jewish education.

**Community Comparisons.** Table 8-32 shows that the 82% of Jewish children age 5-17 who have received some formal Jewish education is about average among about 50 comparison Jewish communities and compares to 81% in Miami, 80% in Atlanta, 76% in South Palm Beach, 63% in West Palm Beach, and 61% in Las Vegas. The 82% compares to 70% in 1997.

Table 8-33 shows that the 94% of Jewish children age 13-17 who have received some formal Jewish education is well above average among about 40 comparison Jewish communities and compares to 94% in Atlanta, 84% in South Palm Beach, 82% in Miami, 62% in West Palm Beach, and 60% in Las Vegas. The 94% compares to 75% in 1997.

### Received Some Formal Jewish Education

**Comparisons Among Population Subgroups.** Table 8-31 shows that, overall, 82% of Jewish children age 5-17 have **received some formal Jewish education**. The percentage is much higher for Jewish children age 5-17 (in):

- age 13-17 (94%)
- households earning an annual income of \$200,000 and over (97%)
- Orthodox households (100%)
- synagogue member households (93%), JCC member households (96%), and Jewish organization member households (97%)
- households in which the respondent attended a Jewish day school as a child (94%)
- households in which the respondent attended or worked at a Jewish overnight camp as a child (99%)
- households in which the respondent participated in a Jewish youth group as a teenager (94%)
- households in which the respondent participated in Hillel/Chabad while in college (excluding High Holidays) (93%)
- households in which an adult visited Israel on a Jewish trip (98%)

- households who donated \$100-\$1,000 (98%) and \$1,000 and over (99%) to the Jewish Federation in the past year

The percentage is much lower for Jewish children age 5-17 in:

- households in the Northwest (72%)
- households earning an annual income of under \$100,000 (70%)
- Just Jewish households (56%)
- intermarried households (52%)
- synagogue non-member households (61%)
- households in which the respondent did not attend Jewish education as a child (44%)
- households in which the respondent did not participate in a Jewish youth group as a teenager (72%)
- households in which no adult visited Israel (56%)
- households who were not asked to donate to the Jewish Federation in the past year (72%)

### **Ever Attended a Jewish Day School**

**Table 8-31** shows that, overall, 29% of Jewish children age 5-17 **have ever attended a Jewish day school**. The percentage is much higher for Jewish children age 5-17 in:

- households in the Southeast (48%)
- Orthodox households (69%)
- JCC member households (60%)
- households in which the respondent attended a Jewish day school as a child (55%)
- households in which the respondent participated in Hillel/Chabad while in college (excluding High Holidays) (44%)
- households in which an adult visited Israel on a Jewish trip (45%)
- households who donated \$1,000 and over to the Jewish Federation in the past year (51%)

The percentage is much lower for Jewish children age 5-17 in:

- households earning an annual income of under \$100,000 (14%)
- Just Jewish households (19%)
- intermarried households (9%)
- synagogue non-member households (18%)
- households in which the respondent did not attend Jewish education as a child (42%)
- households in which the respondent did not participate in Hillel/Chabad while in college (excluding High Holidays) (19%)
- households in which no adult visited Israel (17%)

## DAY CAMP ATTENDED OR WORKED AT BY JEWISH CHILDREN THIS PAST SUMMER

**T**able 8-34 shows that, according to the Telephone Survey, 23% (3,300 children) of Jewish children age 3-17 in Broward attended or worked at a Jewish day camp this past summer (the summer of 2016); 22%, a non-Jewish day camp; and 55% did not attend or work at a day camp.

The *Jewish Day Camp Market Share (market share)* ① is defined as the percentage of Jewish children age 3-17 who attended or worked at a day camp this past summer who attended or worked at a *Jewish* day camp. Jewish day camps have a 51% market share of the day camp market for Jewish children age 3-17.

**Community Comparisons.** Table 8-35 shows that the 23% who **attended or worked at a Jewish day camp** this past summer is about average among about 30 comparison Jewish communities and compares to 37% in Miami, 21% in both South Palm Beach and West Palm Beach, and 18% in Las Vegas. The 23% compares to 13% in 1997.

The 22% who **attended or worked at a non-Jewish day camp** this past summer is above average among about 30 comparison Jewish communities and compares to 28% in South Palm Beach, 20% in West Palm Beach, 12% in Miami, and 10% in Las Vegas. The 22% compares to 20% in 1997.

The 55% who **did not attend or work at a day camp** this past summer is below average among about 30 comparison Jewish communities and compares to 72% in Las Vegas, 59% in West Palm Beach, 52% in Miami, and 51% in South Palm Beach. The 55% compares to 68% in 1997.

The 51% **market share** is below average among about 30 comparison Jewish communities and compares to 76% in Miami, 63% in Las Vegas, 51% in West Palm Beach, and 43% in South Palm Beach. The 51% compares to 40% in 1997.

### **Jewish Institutions Survey.**

**THIS SECTION AWAITING DATA.**

**Comparisons Among Population Subgroups.** Table 8-34 shows that, according to the Telephone Survey, overall, 23% of Jewish children age 3-17 attended or worked at a Jewish day camp this past summer. The percentage is much higher for Jewish children age 3-17 in:

- households in the Southeast (41%)
- the age 3-5 group (50%)
- Orthodox households (59%)
- JCC member households (60%)
- households in which the respondent attended a Jewish day school as a child (46%)
- households in which the respondent participated in Hillel/Chabad while in college (excluding High Holidays) (40%)
- households in which an adult visited Israel on a Jewish trip (44%)

The percentage is much lower for Jewish children age 3-17 in:

- Just Jewish households (7%)
- conversionary in-married households (11%) and intermarried households (5%)
- synagogue non-member households (9%)
- households in which the respondent did not attend Jewish education as a child (3%)
- households in which the respondent did not participate in Hillel/Chabad while in college (excluding High Holidays) (12%)
- households in which no adult visited Israel (6%)
- households who donated \$100-\$1,000 to the Jewish Federation in the past year (13%)

## OVERNIGHT CAMP ATTENDED OR WORKED AT BY JEWISH CHILDREN THIS PAST SUMMER

**T**able 8-36 shows that 10% (1,500 children) of Jewish children age 6-17 in Broward attended or worked at a Jewish overnight camp this past summer (the summer of 2016); 6%, a non-Jewish overnight camp; and 84% did not attend or work at an overnight camp.

The *Jewish Overnight Camp Market Share (market share)* ❶ is defined as the percentage of Jewish children age 6-17 attending or working at an overnight camp this past summer who attended or worked at a *Jewish* overnight camp. Jewish overnight camps have a 63% market share of the overnight camp market for Jewish children age 6-17.

**Community Comparisons.** Table 8-37 shows that the 10% who **attended or worked at a Jewish overnight camp** this past summer is about average among about 30 comparison Jewish communities and compares to 20% in Miami, 11% in both Las Vegas and South Palm Beach, and 9% in West Palm Beach.. The 10% compares to 8% in 1997.

The 6% who **attended or worked at a non-Jewish overnight camp** this past summer is about average among about 30 comparison Jewish communities and compares to 6% in South Palm Beach, and 3% in each of Miami, Las Vegas and West Palm Beach. The 6% compares to 6% in 1997.

The 84% who **did not attend or work at an overnight camp** this past summer is about average among about 30 comparison Jewish communities and compares to 88% in West Palm Beach, 86% in Las Vegas, 84% in South Palm Beach, and 78% in Miami. The 84% compares to 86% in 1997.

The 63% **market share** is about average among about 30 comparison Jewish communities and compares to 88% in Miami, 81% in Las Vegas, 74% in West Palm Beach, and 67% in South Palm Beach. The 63% compares to 56% in 1997.

**Comparisons Among Population Subgroups.** Table 8-36 shows that, overall, 10% of Jewish children age 6-17 attended or worked at a Jewish overnight camp this past summer. The percentage is much higher for Jewish children age 6-17 in:

- households in which the respondent attended a Jewish day school as a child (21%)
- households who donated \$1,000 and over to the Jewish Federation in the past year (25%)

The percentage is much lower for Jewish children age 6-17 in:

- households in which the respondent did not attend Jewish education as a child (2%)

## SENDING CHILD TO JEWISH OVERNIGHT CAMP LAST SUMMER PREVENTED BY COST

**R**espondents in households with Jewish children age 6-17 in Broward who had not sent them to Jewish overnight camp this past summer (the summer of 2016) were asked if cost prevented them from doing so.

**Table 8-38** shows that 27% (2,300 households) of households with Jewish children age 6-17 did not send a child to a Jewish overnight camp this past summer because of the cost.

**Comparisons Among Population Subgroups.** **Table 8-38** shows that, overall, 27% of Jewish children age 6-17 attended or worked at a Jewish overnight camp this past summer. The percentage is much higher in:

- households earning an annual income under \$100,000 (48%)
- Conservative households (42%)
- synagogue non-member households (38%)

The percentage is much lower for households with Jewish children age 6-17 in:

- households earning an annual income of \$200,000 and over (6%)
- synagogue non-member households (3%), JCC member households (8%), and Jewish organization member households (5%)
- households who donated to the Jewish Federation in the past year (7%)
- households who donated \$100 and over to the Jewish Federation in the past year (4%)

## PARTICIPATE IN A JEWISH TEENAGE YOUTH GROUP

**T**able 8-39 shows that, according to the Telephone Survey, 33% (1,900 children) of Jewish children age 13-17 in Broward regularly participate (*participate*) in a Jewish teenage youth group.

### Jewish Institutions Survey

AWAITING DATA FOR THIS SECTION.

**Community Comparisons.** Table 8-40 shows that the 33% who participate in a Jewish teenage youth group according to the **Telephone Survey** is about average among about ten comparison Jewish communities and compares to 33% in Miami and 22% in Las Vegas.

Table 8-41 shows that the XX% who participate in a Jewish teenage youth group according to the **Jewish Institutions Survey** is XXXX among about 30 comparison Jewish communities and compares to 27% in Miami, 21% in South Palm Beach, and 18% in both Las Vegas and West Palm Beach. The XX% compares to 21% in 1997.

**Comparisons Among Population Subgroups.** Table 8-39 shows that, overall, 33% of Jewish children age 13-17 participate in a Jewish teenage youth group. The percentage is much higher for Jewish children age 13-17 in:

- households in Southwest (50%)
- Conservative households (44%)
- households who attended Chabad in the past year (44%), JCC member households (48%), and Jewish organization member households (53%)

The percentage is much lower for Jewish children age 13-17 in:

- Reform households (19%)

## JEWISH CHILDREN CURRENTLY INVOLVED IN FORMAL OR INFORMAL JEWISH EDUCATION

**T**able 8-42 shows that 60% of Jewish children age 0-17 in Broward are currently involved in some type of formal or informal Jewish education in that they:

- ❶ currently attend a Jewish preschool/child care program;
- ❷ currently attend a Jewish day school;
- ❸ currently attend a Jewish supplemental school;
- ❹ attended or worked at a Jewish day camp this past summer;
- ❺ attended or worked at a Jewish overnight camp this past summer; or
- ❻ currently participate in a Jewish teenage youth group.

**Community Comparisons.** Table 8-43 shows that the 60% who are currently involved in formal or informal Jewish education is about average among ten comparison Jewish communities and compares to 66% in Miami and 30% in Las Vegas.

**Comparisons Among Population Subgroups.** Table 8-42 shows that, overall, 60% of Jewish children age 0-17 are currently involved in formal or informal Jewish education. The percentage is much higher for Jewish children age 0-17 in:

- households in the Southeast (71%) and the Southwest (71%)
- Households earning an annual income of \$200,000 and over (75%)
- Orthodox households (81%)
- synagogue member households (72%), JCC membership households (92%), and Jewish organization member households (76%)
- households in which the respondent attended a Jewish day school as a child (83%)
- households in which an adult visited Israel on a Jewish trip (78%)
- households who declined to donate when asked to the Jewish Federation in the past year (76%)
- households who donated \$1,000 and over to the Jewish Federation in the past year (71%)

The percentage is much lower for Jewish children age 0-17 in:

- households in the East (43%), and the West Central (31%)
- Households earning an annual income under \$100,000 (50%)
- Just Jewish households (39%)
- intermarried households (31%)
- synagogue non-member households (38%)
- households in which the respondent did not attend Jewish education as a child (24%)
- households in which no adult visited Israel (35%)
