

Jewish Federation & Security Community Network (SCN)

Jewish Federation of Broward County and the Secure Community Network (SCN) are partners in a security initiative to provide a robust Community-wide Security program. This unique program is designed to significantly increase safety and security for all those who participate in houses of worship, day schools, service organizations, and other centers of Jewish life in and around Broward County.

In partnership with Secure Community Network (SCN), this year, the Jewish Federation of Broward County provided record levels of multi-disciplinary services to help keep our community safe, including:

1. **Threat Vulnerability Risk Assessments (TVRAs)** to identify potential security gaps and provide holistic solutions to mitigate security shortcomings.
2. **Emergency preparedness assistance**, including developing and implementing Crisis Management Plans, Emergency Response Plans, Tabletop Exercises, and drills.
3. **Training classes that empower community members and communal institutions**, including Situational Awareness, Countering an Active Threat, and Stop the Bleed. These trainings safeguard institutions in the event of a critical incident.
4. **Grant application assistance** to help organizations access federal and state financial resources.
5. **Social media and Dark Web** monitoring 24/7 and reporting by the SCN Jewish Operations Command Center (JSOC).
6. **Provide expert advice** to our institutions and share intelligence with our federal, state, and local law enforcement partners.
7. An **online Incident Reporting Form** to allow community members to report suspicious activity directly to the Community Security Director for immediate action.
8. Connect to the **SCN Alert system** to allow for immediate notification of time-critical events.
9. Design and implementation of **Safety and Security Plan** for community-wide large scale events such as Maccabi Games.
